V. METHODOLOGY

We will use a variety of instructional methods to include: Published articles, group discussions, research writing (see below), Blackboard Online Educational platform, and lectures. We may also use guest speakers, multimedia presentations, short quizzes for focus and clarity, and reflection papers depending on the time availability of the class. This course draws heavily on the experience and participation of the students.

Emotional Intelligence Research (Scholarly Written) Paper

Students (as a group) are to do preparations for a final research paper. Students should also expect to locate recent research articles regarding Emotional Intelligence (EI). Students are to review and collect EI related information selected from candidates featured in recent articles of various publications (e.g., textbooks, scientific journals, website communications, etc).

The research will be reported in a 5 to 12 page, double spaced treatise (including an Abstract). The literature sources reviewed, should be documented following strict American Psychological Association (APA) manual guidance with regard to “In Text Citations”, and “Reference Page” formatting. The literature used to support the project must adhere to standards which add credibility and enhanced learning, thus conveying the students’ critical thinking abilities. At least seven additional sources (plus the course text) should be cited in the paper. The instructor will provide examples of reputable sources at the end of the syllabus. This paper is due on the last day of class.

The Oral Presentation (research paper’s final phase) presented by each group, will consist of a 10 – 15 minute brief
accompanied with a PowerPoint illustration, followed by a five minute question and answer session. The presentation will display the students’ mastery of the EI concept via clear, professional, and organized means. Groups will begin presenting on our final weekend of class.

The Online Blackboard (Bb) Forum: Students will have to access the Bb platform during this course. They will participate as individuals (Discussion Board) and as members of assigned groups (EI Research Paper) during the 25 Aug – 25 Sep time period. Details for this component are fully explained via the Announcements area within the forum.

VI. COURSE OUTLINE/ASSIGNMENTS

Pre-Class Assignment:

Vignette/Chapter Presentation (pre-class assignment)

The students will read chapters 1- 5 of the text prior to the first meeting. Upon completion and establishing a basic understanding of the Emotional Intelligence (EI) concept, the student will select an EI related Vignette (article) from a newspaper, magazine, or the internet to present to the class.

In addition, the student will draft a one page summary addressing the EI highlights of the article (be sure to include your name on the draft). The draft will be turned-in to the instructor prior to presenting the Vignette to the class. This exercise will be due on the first and second (22 Aug & 26 Sep 2014) Friday class sessions.

Four volunteers will be asked to give individual PowerPoint presentations (15 – 25 mins in duration) on Chapters 2, 3, 4, and 5 of the text (they should contact the instructor ASAP upon registration). These will include a summary of the chapters, information from other sources outside of the text (addressing the same topics discussed in the chapters), and practical examples (which can include video clips illustrating the points discussed in the chapters, class exercises, games, etc.) These presentations will be given on Saturday, the second class meeting. The remaining students will be assigned their chapters during the first class meeting. If volunteers haven’t come forward one week prior (15 Aug 2014) to the first class meeting, the instructor will select four individuals from the class roster for these assignments.
