Late Assignments:

Late/Incomplete Work. Each week's work must be completed by midnight Sunday of the following week. Late work will receive 20% deduction from the given credit. In the event of an emergency or illness, students should contact the instructor as soon as possible to make alternative arrangements. Assignments/projects/exams not completed will receive zero points.

Make-ups and Rewrites:

Turning assignments in. All assignments should be turned in via the assignment hyperlink in each of the weekly folders. The due date for each assignment is posted within the assignment and also under the “Course Outline” in your syllabus. There will be 20% penalty for submitting assignments after the due date.

Deadlines. Odd things happen in cyberspace—submissions get lost, servers disconnect temporarily, and logins fail. Do not wait for the last minute to submit your work. Allow time to meet deadlines. You are responsible for getting the work submitted on time.

VIII. EXPECTATIONS

Attendance and Participation:

To be a successful online student. It takes great time and effort to be a successful online student. You have to be self-motivated and self-disciplined to keep yourself on schedule with reading, assignments, projects, etc. Please understand that you must designate/devote time in your busy schedules to work on the course so you won’t fall behind.

Communication is a key. It is extremely important that we keep effective lines of communication open during this online experience. I will work very hard to make sure that I am available and expect that you will do the same for your classmates. If you have questions, please feel free to use email, discussion board, chat, or phone to contact me or classmates. This learning experience is designed to not only build on your own experiences but to also learn from each other.

CMU E-mail. It is very important that you access your Central Michigan University (cmich) e-mail often, at least every-other-day. Students should respond to emails/messages within 24-48 hours. Visit http://www.cmich.edu to log into your email and/or Blackboard shell.

Responding to email. I will check my email daily. I will respond to course related questions within 24–48 hours. If I find those questions relevant and important to others, I will post them on the Announcement page.

Announcements. I highly recommend you to read Announcements every other day. All important reminders, updates, questions and answers, etc. are posted there because this is the first page when you log into the class. If you happen to miss any days, please click tabs "View Last 7 days" or "View Last 30 days" to get yourself caught up with what has been going on with the class. I will also email copies of announcements to your “cmich” email address. Visit http://www.cmich.edu to log into your email and/or Blackboard shell.

Expectations for Students

- Students are expected to take responsibility for their own learning by participating in all aspects of this course. It is important to access/use all the resources that are components of this course. This includes not only course materials and assignments, but taking advantage of the discussion boards, blogs, email, and communication channels between the facilitator and other classmates.
- Students are expected to ask questions if they need help, clarification or support. As a course facilitator I cannot help you unless you let me. All questions are important – there is no such thing as a “dumb” question.
- Students are expected to use each other as resources for learning in this course. One of the benefits of group learning is that we can learn from each other’s viewpoints, experiences, skills, questions and feedback.
- Students are expected to be proficient in the use of Blackboard and online communication channels before class begins.
- Students are expected to complete all pre-course tasks before the first day of class.
- Students are expected to have access to the internet and the Blackboard shell for the entire eight weeks of the course.
- Students are expected to check their cmich email and Blackboard course announcements every day.
- Students are expected to respond to all messages, from either the course facilitator or other classmates, within 24-48 hours.
- Students are expected to complete all assignments by assigned deadlines.
- Students are expected to participate in the discussion board activities.
- Students are expected to participate in two chats during the eight week course.
- Students are expected to contribute and collaborate with group members to complete group projects.
Students are expected to check their grades on a regular basis and notify the course facilitator immediately if they have a question about an assigned grade.

**Academic Integrity:**

Because academic integrity is a cornerstone of the University's commitment to the principles of free inquiry, students are responsible for learning and upholding professional standards of research, writing, assessment, and ethics in their areas of study. Written or other work which students submit must be the product of their own efforts and must be consistent with appropriate standards of professional ethics. Academic dishonesty, which includes cheating, plagiarism and other forms of dishonest or unethical behavior, is prohibited. A breakdown of behaviors that constitute academic dishonesty is presented in the CMU Bulletin (https://bulletins.cmich.edu/).

**Student Rights and Responsibilities:**

Each member of the Central Michigan University community assumes an obligation regarding self conduct to act in a manner consistent with a respect for the rights of others and with the University's function as an educational institution. As guides for individual and group actions within this community, the University affirms the general principles of conduct described in the Code of Student Rights, Responsibilities and Disciplinary Procedures at https://www.cmich.edu/ess/studentaffairs/Pages/Code-of-Student-Rights.aspx.
